

Beyond the Fire Drill Workshop Table Top Exercise for Child Care Providers

Child care providers are responsible for having an emergency plan for their centers that provides for the safety of their children, staff and parents. Equally as important is having peace of mind knowing that your plan has been practiced and your staff can adequately carry out their responsibilities in a crisis.

The Table Top Exercise workshop provides an informal and stress-free environment for child care staff to simulate emergency situations while examining the roles, responsibilities, activities, and logistics associated with responding to an emergency situation. Participants are provided with a scenario and series of events that will encourage discussion to evaluate and resolve unfolding problems based on the center's existing plans.

At the end of the exercise, participants will:

- Have a better understanding of their roles and responsibilities
- Identify gaps in the current emergency plan
- Identify communication needs
- Identify resource requirements
- Have peace of mind

Required: Emergency Plan
Duration: 4 hours
Cost: Call for Pricing

If you are a child care provider or organization and would like for us to conduct a **Table Top Exercise** workshop for your staff, please contact us at **800-541-1974** or send an email to info@cyjenterprises.com

Does your staff?

- 1. Have an understanding of their role and responsibilities during a crisis?*
- 2. Know your evacuation location and transportation requirements?*
- 3. Have Peace of Mind knowing they are prepared?*

If you answered no to any of these questions, call us to arrange a Table Top Exercise.

Who Should Attend?

- Directors
- Teachers
- Volunteers
- Administrators
- Parents (Optional)
- Bus Drivers
- Facilities Management
- Other Staff
